### **DETAILED ACTION**

#### ***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 2/17/09 has been entered.

#### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) The invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 15-20, 23-32, and 42-44 are rejected under 35 U.S.C. 102(b) as being anticipated by Taheri 5,824,064

Taheri discloses a valve for implantation at a desired location within a mammal, comprising: a flexible sleeve 23 having a proximal end, a distal end and an outside surface; at least one cusp configured to permit blood flow through the at least one cusp in a single direction; at least one ring 22 comprising legs attached to the outside surface at only the proximal end of the sleeve, the at least one ring being attached to a portion of the sleeve that is not everted; and at least one fastener extending in a direction

radially outward with respect to the sleeve. See figures 2A-B and relevant portions of the specification.
